Creando mi repositorio en GITHUB

Create a new repository

A repository contains all project files, including the revision history. Already have a project repository elsewhere? Import a repository.

Owner *   /   **Repository name** *

👤 MarianaSardo ▾ / [Testing   ✓]

Great repository names are short and memorable. Need inspiration? How about automatic-parakeet?

Description (optional)

[Repositorio Testing T05-TM   ]

🔘 🖥 **Public**
Anyone on the internet can see this repository. You choose who can commit.

⚪ 🔒 **Private**
You choose who can see and commit to this repository.

Initialize this repository with:
Skip this step if you're importing an existing repository.

☑ **Add a README file**
This is where you can write a long description for your project. Learn more.

Add .gitignore
Choose which files not to track from a list of templates. Learn more.

[.gitignore template: None ▾]

Choose a license
A license tells others what they can and can't do with your code. Learn more.

[License: None ▾]

This will set ⑂ main as the default branch. Change the default name in your settings.

ⓘ You are creating a public repository in your personal account.
